

SANT PERE DE CALELLA CHURCH

In 1854, the priest of Palafrugell

asked the Archbishop of Girona

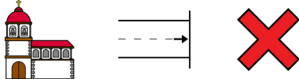

for a new parish in Calella.

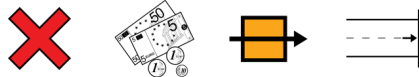

The new church opened in 1887.

It wasn't totally finished,

because there wasn't enough money to complete the building work.

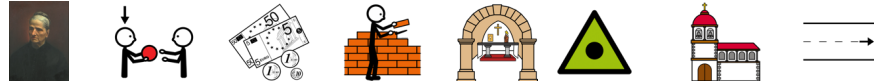

Dorotea de Chipotea was the widow of José María Serra.

José María Serra was the son of a man from Palafrugell

Dorotea de Chipotea donated the money to build the rectory and finish the church.

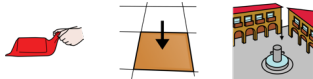

The building was restored between 1958 and 1968.

The clock was changed and the bell tower covered.

Tiles were placed on the floor of the square.

The painter Raimon Roca Ricart decorated the inside of the church

with scenes from the life of Saint Peter.
